Table of Content

ABOUT DEPARTMENT

IIT Kanpur was established on November 2, 1959, with Professor P. K. Kelkar as the founding director. The first batch of Bachelors students was admitted in August 1960. It was the first institute in India to introduce a science-based engineering curriculum at the undergraduate level. From the beginning, IIT Kanpur established independent engineering and science departments, including the Department of Mathematics, which started in 1960 with two faculty members. In 2004, it was renamed the Department of Mathematics and Statistics. The department has since become one of the premier departments in the country, contributing significantly to producing well-trained statisticians. In the 2024 QS World University Rankings, IIT Kanpur is among the top two in India for statistics and data science, with research spanning interdisciplinary areas of science and technology.

HOD'S MESSAGE

"The Department of Mathematics and Statistics at IIT Kanpur came into existence in 1960. Over the years, it has evolved as one of the premier departments in the country, making a remarkable contribution in adding to the lot of well-trained, bright mathematicians and statisticians in the country and abroad. In the 2024 QS world university rankings, IIT Kanpur is rated among the top two in the country in the areas of mathematics and data science. In the recent JEE entrance, our department is positioned just after the department of Computer Science & Engineering in the Institute, in terms of opening and closing ranks. The department occupies a unique position in the Institute, offering several popular academic programs: 2 BS-MS programs (in Mathematics & Scientific Computing and Statistics & Data Science), 2 MSc 2-year programs (in Mathematics and Statistics), and 2 PhD programs (in Mathematics and Statistics). Trained by faculty who are leading experts in their fields, the students of these programs get well-set to make a mark in academia as well as industry. Past placement records of our students and achievements by our alumni provide ample evidence in this regard.

On behalf of the department, I heartily welcome the companies to the campus recruitment of IIT Kanpur." - Prof. Mohua Banerjee (HOD) department of Mathematics and Statistics, IIT Kanpur

The department takes pride in the distinguished faculty that enriches the deep roots of education in the institute.

There are a total of **53** professors, assistant professors, and associate professors whose research interests provide significant diversity in both pure and applied mathematics and statistics

Most of these professors have delivered our lectures in the first two semesters, and some exceptional professors will deliver our lectures in the upcoming two semesters.

Dr. Amit Mitra

Professor

Email: amitra@iitk.ac.in

Dr. Minerva M.

Assistant Professor

Email: minervam@iitk.ac.in

Dr. Soumyarup S. Assistant Professor

Email: soumyarups@iitk.ac.in

Dr. Arnab Hazra

Assistant Professor

Email: ahazra@iitk.ac.in

Dr. Neeraj Mishra

Professor

Email: neeraj@iitk.ac.in

Dr. Subhajit Dutta Assistant Professor

Email: duttas@iitk.ac.in

Dr. Debasis Kundu

Professor

Email: kundu@iitk.ac.in

Dr. Shalabh

Professor

Email: shalab@iitk.ac.in

Dr. Subhra Sankar Dhar

Associate Professor

Email: subhra@iitk.ac.in

Dr. Dootika Vats

Assistant Professor

Email: dootika@iitk.ac.in

Dr. Sharmishtha Mitra

Professor

Email: smitra@iitk.ac.in

Dr. Suprio Bhar

Assistant Professor

Email: suprio@iitk.ac.in

Dr. Mohua Banerjee
Professor

Head of the Department

Email: mohua@iitk.ac.in

OUR STUDENTS

OUR PROGRAM

55

MALE STUDENTS

BRILLIANT STUDENTS INTERESTED IN PLACEMENTS

FEMALE STUDENTS

15

Preparing for career in different sectors like Quant, Finance, Data Analysis, Data Science, NLP, LLM

COURSES with detailed structures, Associated labs, Ample of exams and Course projects

53 esteemed professors and their insight to tackle real-life problems through projects

INNOVATION

Is the main focus accompanied by MASTERS level projects

2 Years PG course in Statistics
Admission test: JAM MS
Acceptance Rate: ~ 3%

FOUNDATION

This semester is mainly focused on

- 1. Strengthening our statistical & analytical foundations.
- 2. Introduction to Data science based programming and projects.
- 3. Finding the connection between statistics and data science in courses like Data science lab, Matrix Algebra and Linear Estimation.

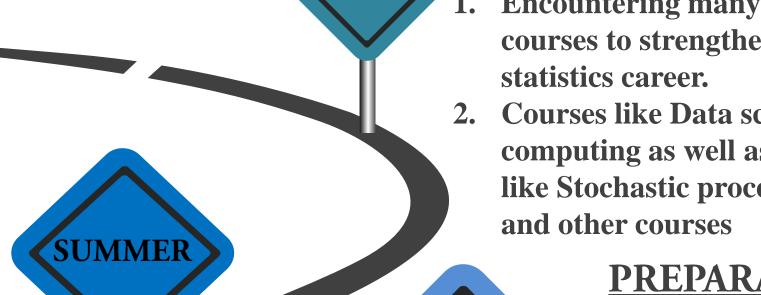

OUR LEARNING JOURNEY

INTERNSHIPS, PROJECTS & TRAINING

In the long 2.5 months (approx.) summer, our students get engaged in

- 1. Internships & projects based on real life problems
- 2. Training internships
- 3. Summer courses to hone their skills in their preferred domains.

SEM-3

SEM-2

STATISTICS AND DATA SCIENCE MASTERY

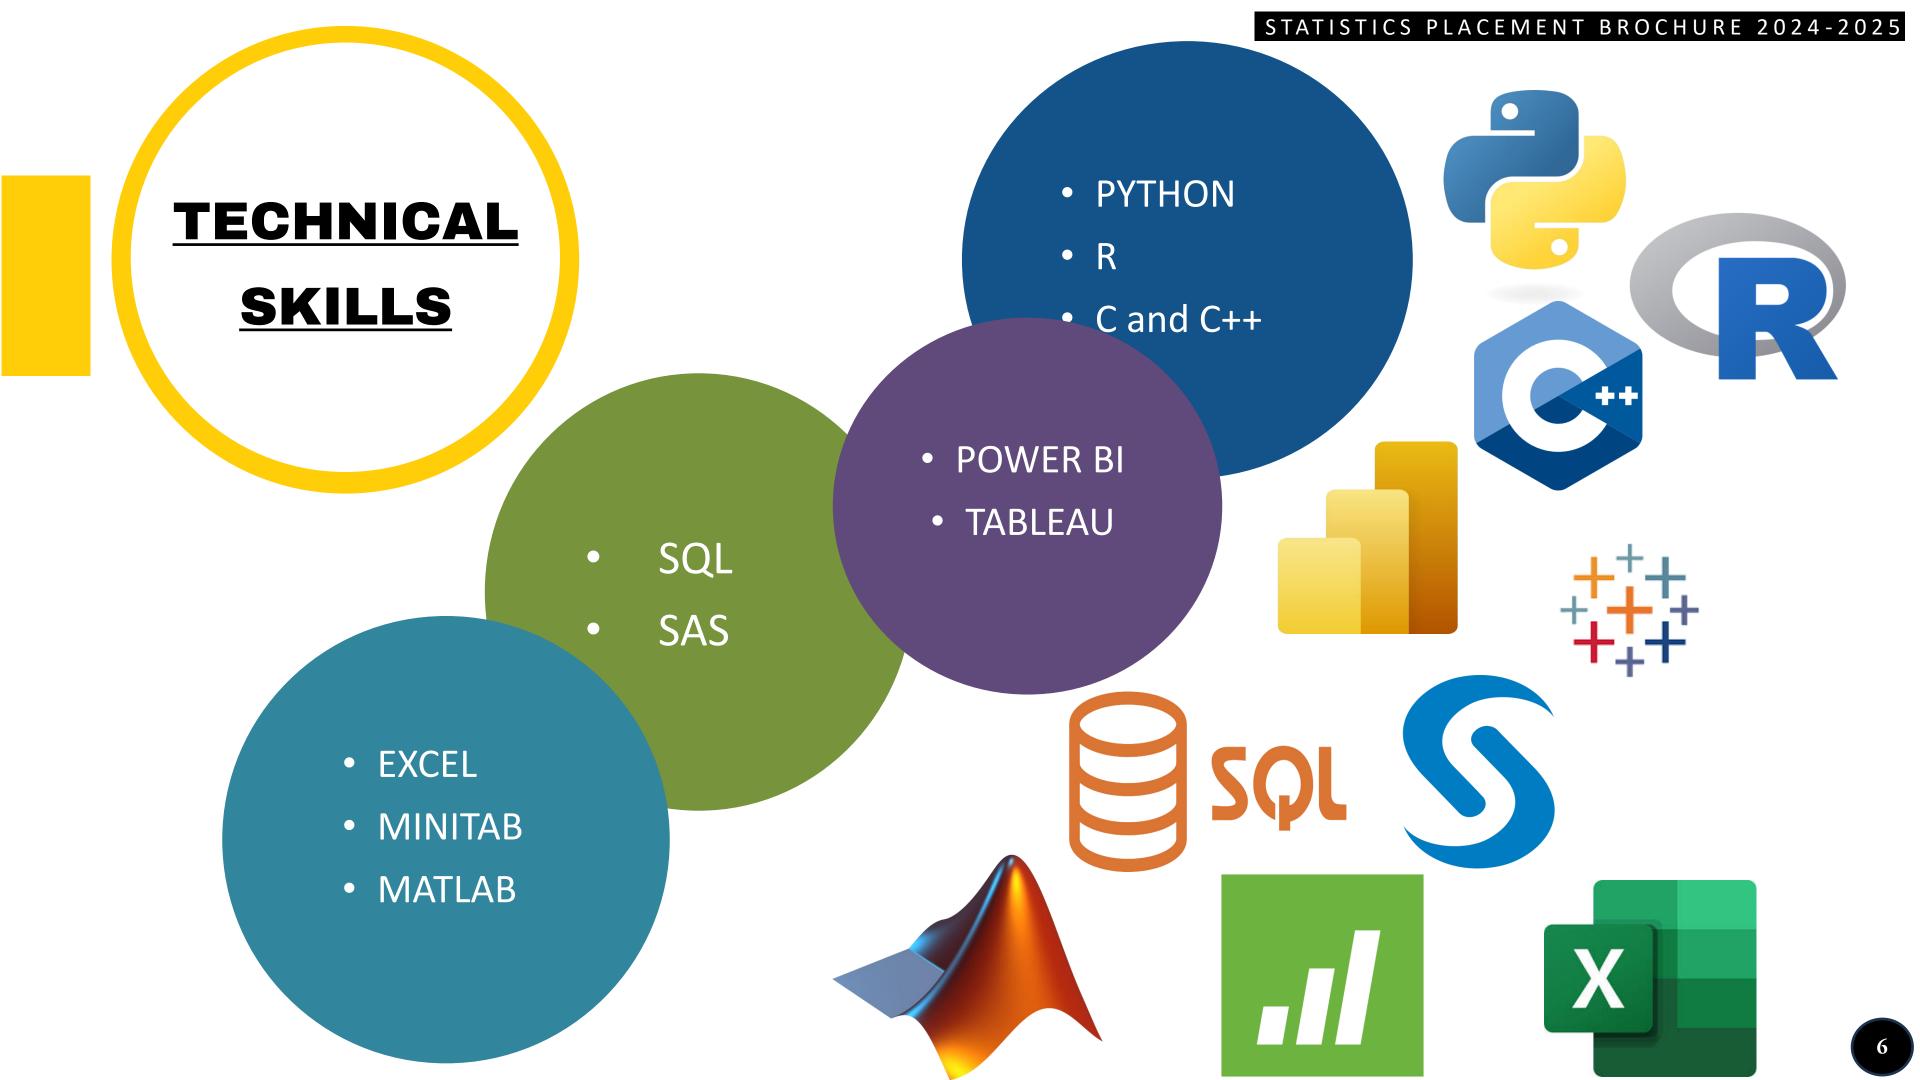

This rigorous semester is based on

- 1. Encountering many fundamental statistical courses to strengthen our data science and statistics career.
- 2. Courses like Data science lab -2, Statistical computing as well as purely statistical courses like Stochastic process, Statistical Inference and other courses

PREPARATIONS & PLACEMENTS

In this semester, we take more advanced courses such as AI & Statistical Methods in Data Mining, Bayesian Statistics, and Time Series Analysis. We also finalize our preparation for the upcoming placement season.
